

PRESCOTT BLUEBIRD RECOVERY PROJECT SPRING NEW MONITORS' WORKSHOP

9:00 to noon February 25, 2012 at
Champoeg State Heritage Area Visitor Center

Come learn from our volunteers! You will hear basic Western Bluebird facts, where bluebirds live, their nesting habits, and where and how we do our conservation work. Volunteers explain how our project is structured and where monitors fit into the program. You will understand monitor responsibilities and time commitments. We show a video taken inside a bluebird nestbox.

Active volunteers in our program will be there to help answer questions. We assign new monitors to routes that are vacated by retiring volunteers. Our nestboxes are primarily located in Washington, Yamhill, and Clackamas counties. To register, send E mail to: email@prescottbluebird.com. Please include your telephone contact number. Or call 503.246.7920 to leave a message and your telephone number to register.

If you like what you learn, sign up to be a volunteer monitor right at the workshop!

Our volunteers look forward to meeting you!
